Do you have supporting evidence such as photos, videos etc.?
Do not send offensive / pornographic or concerning material: you may be committing an offence.
Provide as much information as you can about the associated criminal activity instead of sending us the material itself.
Does your video relate to a traffic offence? Unless the traffic offence is an ongoing or regular occurrence, for police to take action against the driver, police may require you to provide your details.
You can upload up to 10 images with total attachment limit of 40MB. Your report can't be accepted if you exceed that limit.
